

Portable Power

Portable Air Compressors

Product Range

Doosan Portable Air Compressors

Performance you can trust

Doosan Portable Power offers a complete line of [CE-compliant portable compressors](#): 24 different models, with [free air deliveries](#) between 2 and 45m³/min and operating pressures between 7 and 25 bar.

Each compressor is "built to be used", offering the [highest level of durability, productivity and serviceability](#).

This proven reliability and retained value makes a Doosan Portable Power compressor a [wise investment](#) in today's competitive environment.

High Ambient capability

All CE-compliant models have an LAT value of 46°C. For applications in [hot climates](#) outside the CE territory, the [high ambient temperature option](#) offers an [LAT of 52°C](#).

Large fuel tank capacity

Well-positioned fuel tanks with large filler size, [limiting fuel spillage risk](#).

Factory Fitted Option (see table for availability per model)

Variable height running gear

Feature: Comprehensive running gear configuration with EC lighting requirements on all road tow running gear 7/20 through to 7/170.

Benefit: Gives towing height flexibility.

Less running gear – Shipping support

Feature: Temporary metal support to ensure safe transit of the unit to the customer.

Benefit: Reduced risk of machine damage.

Less running gear – Permanent support

Feature: Permanent metal support for truck mounted.

Benefit: Typically ordered with truck mounted.

Permanent mount
Support replacing the running
when the machine is to be

Single colour paint and laser etching option for canopy
Feature: Upper enclosure to customer colour.
Benefit: Allows customer specific livery and reduces the risk of theft.

Jockey wheel
Feature: All units have a jockey wheel as standard. (Except 7/20, not applicable on dual axle models).
Benefit: Helps on-site manoeuvrability.

Lubricator
Feature: A built-in lubricator option helps to oil pneumatic tools. It is available up to the 7/170, excluding the 14/115 and 10/125.
Benefit: Increases tool reliability and life.

Wheel chocks
Feature: 2 wheel chocks on the enclosure.
Benefit: A legal requirement in many areas can help prevent

chocks with attachments to lower
requirement in Germany, these chocks
machine movement on a slope.

Light weight compressor mounted hose reel
Feature: Allows the safe and compact storage of 20 m of 3/4" hose. Available on certain models only.
Benefit: Longer hose life and reliability, increased convenience for the operator.

Toolbox
Feature: A built-in storage compartment designed to take a 1R30 (30 kg) breaker.
Benefit: Reduced risk of theft and facilitates transport.

6 kVA generator option
Feature: This feature significantly increases compressor flexibility by supplying electrical output in addition to compressed air. Electrical tools or appliances can be operated simultaneously with pneumatic equipment.

Wheel nut position indicator

Feature: The checkpoints are fixed to the wheel nuts and set in a recognizable pattern.

Benefit: Safety precaution – should a wheel nut loosen, the set pattern will be broken.

Spark arrestor

Feature: Diesel engine exhaust spark arrestors are a basic but key safety feature for hazardous area applications.

Benefit: Eliminates the risk of exhaust sparks.

Overspeed valve

Feature: Should the engine begin to accelerate due to volatile vapours in the atmosphere, an overspeed valve closes the air intake to the engine.

Benefit: Prevents damage due to overspeed.

Serviceability & internal accessibility

Serviceability is excellent, with **easy access** to all **maintenance points**. All areas have been carefully designed for ease of inspection, maintenance and repair. Service intervals for different compressor components have been rationalized to **reduce associated costs** for the customer and increase utilization in the plant hire industry.

7/41+
Feature: 7/41 with "Tough Top" canopy.

Security

Features include a **lockable canopy** and lockable **steel instrument panel cover**. In addition, a folding lift bail **reduces the risk of theft** by keeping the lifting eye within the compressor enclosure.

Modular design and flexibility

Highly modular design allows optional equipment to be added easily. The **wide range of options** available allow the machines to be adapted to the specific application, such as fitting of an **aftercooler** system for abrasive blasting, to a personal paint scheme in the customer's livery.

Easy to operate

Doosan Portable Power compressors have an intuitive, simple key-start sequence. **Ideal for rental companies** because of the **reduced risk** of machine abuse by untrained operators. The **user-friendly control panel** offers an open layout of instruments and warning indicators.

The Portable Air Compressors journey at Doosan starts here

Peace of mind

All Doosan compressor products offer a **1 year or 2000 hours warranty**. The airend carries a **standard 2 years or 4000 hours warranty**. Conditional on the continued use of genuine parts, fluids and filters and the machine being serviced at the correct specified intervals by an authorized Doosan Portable Power distributor, the airend warranty can be **extended to 5 years or 10000 hours**. This warranty option **enhances the resale value** through the ability to transfer the warranty from one owner to the next. Some **engines** can also be included in the **5 year coverage**.

Aftermarket solutions

- Dealer stocking programme for frequently-used parts
- Express availability for other parts
- Supporting you and your dealer with troubleshooting expertise on difficult service problems

Financial solutions

Financing and leasing options tailored to meet your individual business needs. Our streamlined loan application and credit approval process can quickly make your business plans a reality.

With Doosan Portable Power, you are not just buying a piece of equipment. You are investing in the strength and expertise of Doosan Portable Power and its people. From engineers and factory technicians, to field representatives and your dealer, we support your purchase. We are committed to helping you realize maximum value job after job, day after day. Wherever you see a piece of Doosan Portable Power equipment, you'll know that all of Doosan Portable Power team is behind it.

Our industry-leading support system will keep you up and running for as long as you own your Doosan Portable Power equipment. Doosan Portable Power is committed to supporting each product throughout its life. We are committed to offer you an invaluable source of product information, financial service, training, technical service bulletins, service, parts and more...
