

WASTE COLLECTION

A NAVISTAR COMPANY

MILES AHEAD

NEVER MISSES A PICKUP
SO YOU NEVER MISS A PAYDAY.

NEVER MISSES A PICKUP

SO YOU NEVER MISS A PAYDAY.

EVERY DAY YOU PICK UP THE GARBAGE.

YOU DRIVE THE STREETS, THE ALLEYS, THE CONSTRUCTION SITES AND THE LANDFILLS.

YOU HAUL ALL THAT STANDS IN THE WAY OF PROGRESS.

MILE AFTER MILE, TON AFTER TON, YOUR INTERNATIONAL® IS THERE FOR YOU.

WORKSTAR.™ PAYSTAR.® DURASTAR.™

TOUGH. STRONG. RELIABLE.

YOUR PARTNERS IN A NEVER-ENDING CHORE. TOMORROW YOU'LL BE BACK ON THE JOB.

AND YOUR INTERNATIONAL WILL BE RIGHT THERE WITH YOU, HELPING TO KEEP YOU MILES AHEAD.

A TOUGH WAY TO MAKE A LIVING NEEDS AN EVEN TOUGHER TRUCK.

It picks up the garbage countless times a day. And the International® WorkStar™ makes it look easy. With a choice of MaxxForce,™ Caterpillar, or Cummins power and a standard, Huck-bolted frame-rail system, it has what it takes whether on the road or at the landfill.

It's all about being durable. But durability doesn't come at the expense of driver comfort. A wheelcut up to 50° and greater visibility from a panoramic, wraparound windshield make maneuvering a breeze. The standard, roomy, air-suspension cab provides a smooth, comfortable ride. And the synchronized and extended service intervals improve uptime while the Diamond Logic® Electrical System boosts productivity, detecting maintenance issues up to 80% faster.

Sure, the trash just keeps on coming. But you can always count on a WorkStar to keep you miles ahead.

BOTTOM LINE

- Sturdy, 10.125" C-Channel frame with standard Huck-bolt fasteners and optional double 10.125" or single 12.25" frame rails allow you to carry more and do more.
- Standard wide-track axles provide maximum maneuverability.
- Optimized cooling system is mounted above the frame rails for uninterrupted FEPTO access.
- Diamond Logic Electrical System allows seamless body and chassis integration. While optional AWARE Vehicle Intelligence™ telematics simplify vehicle tracking.
- Largest vocational cab in the industry with standard air-ride suspension and best-in-class HVAC system keeps drivers comfortable and focused.
- Clean cab-to-axle simplifies body mounting for various equipment configurations. Cab can accommodate stand-up, right-hand drive.

WORKStar™

EVEN LANDFILLS DESERVE A PROVEN LEADER.

Sure, the International® PayStar® has the classic good looks of a long-nose conventional. But it's what's underneath that counts. That's where the rugged, proven design of the PayStar shines.

Built from the ground up for the most severe conditions, it can handle the biggest, heaviest loads all day long. The extra-strong, 12.25" single frame rails feature Huck bolt fasteners, while 5-piece steel cross-members deliver superior strength. And with your choice of Caterpillar or Cummins engines that turn out up to 625 hp and 2,050 lb-ft of torque, the PayStar barely breaks a sweat on even the biggest jobs.

The International PayStar. It's more than just a pretty face. It's miles ahead in power and productivity.

PAYSTAR®

BOTTOM LINE

- High-horsepower engines with up to 625 hp and 2,050 lb-ft of torque.
- Largest, roomiest aluminum cab in its class with Whisper Cab® sound insulation is built for off-road, rugged applications.
- Huck-bolted chassis components ensure maximum durability, hauling even the biggest loads.
- Multiple set-forward and set-back axle options available to meet your weight distribution needs.

CARRIES TRASH SHORT DISTANCES BUT IT'S BUILT FOR THE LONG HAUL.

Whether picking up cans in a busy subdivision or pulling dumpsters out of tight alleys, the International® DuraStar™ knows how to get the job done. From the Huck-bolted frame that offers impressive durability, to the available air-ride cab that keeps the driver comfortable all day long, DuraStar is ready to work.

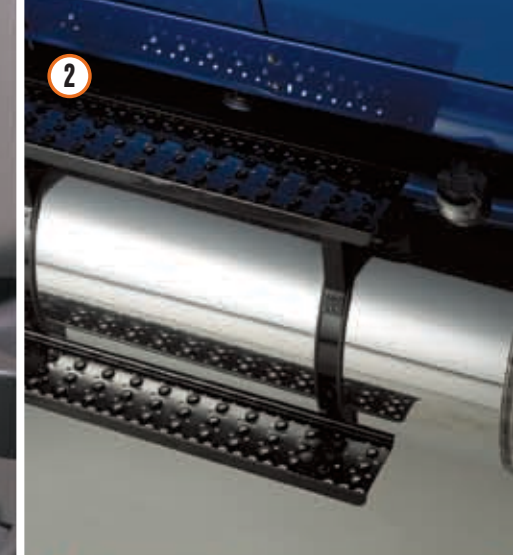

And with the Diamond Logic® Electrical System maintenance costs stay down with advanced self diagnostics, while its fully customizable switches and safety interlocks simplify body installation and help protect both vehicle and crew.

With unparalleled durability and comfort, not to mention one of the lowest costs of ownership in its class, the DuraStar helps your business clean up. And that keeps you miles ahead.

DURASTAR
POWERED BY MAXXFORCE

BOTTOM LINE

- Powered by International® MaxxForce™ engines with up to 330 hp and 950 lb-ft of torque.
- Synchronized and extended service intervals reduce repair times up to 20%.
- Diamond Logic features programmable safety interlocks and self-diagnostics that warn of potential problems before they happen.
- Slanted hood and wraparound windshield offer a commanding view of the road.

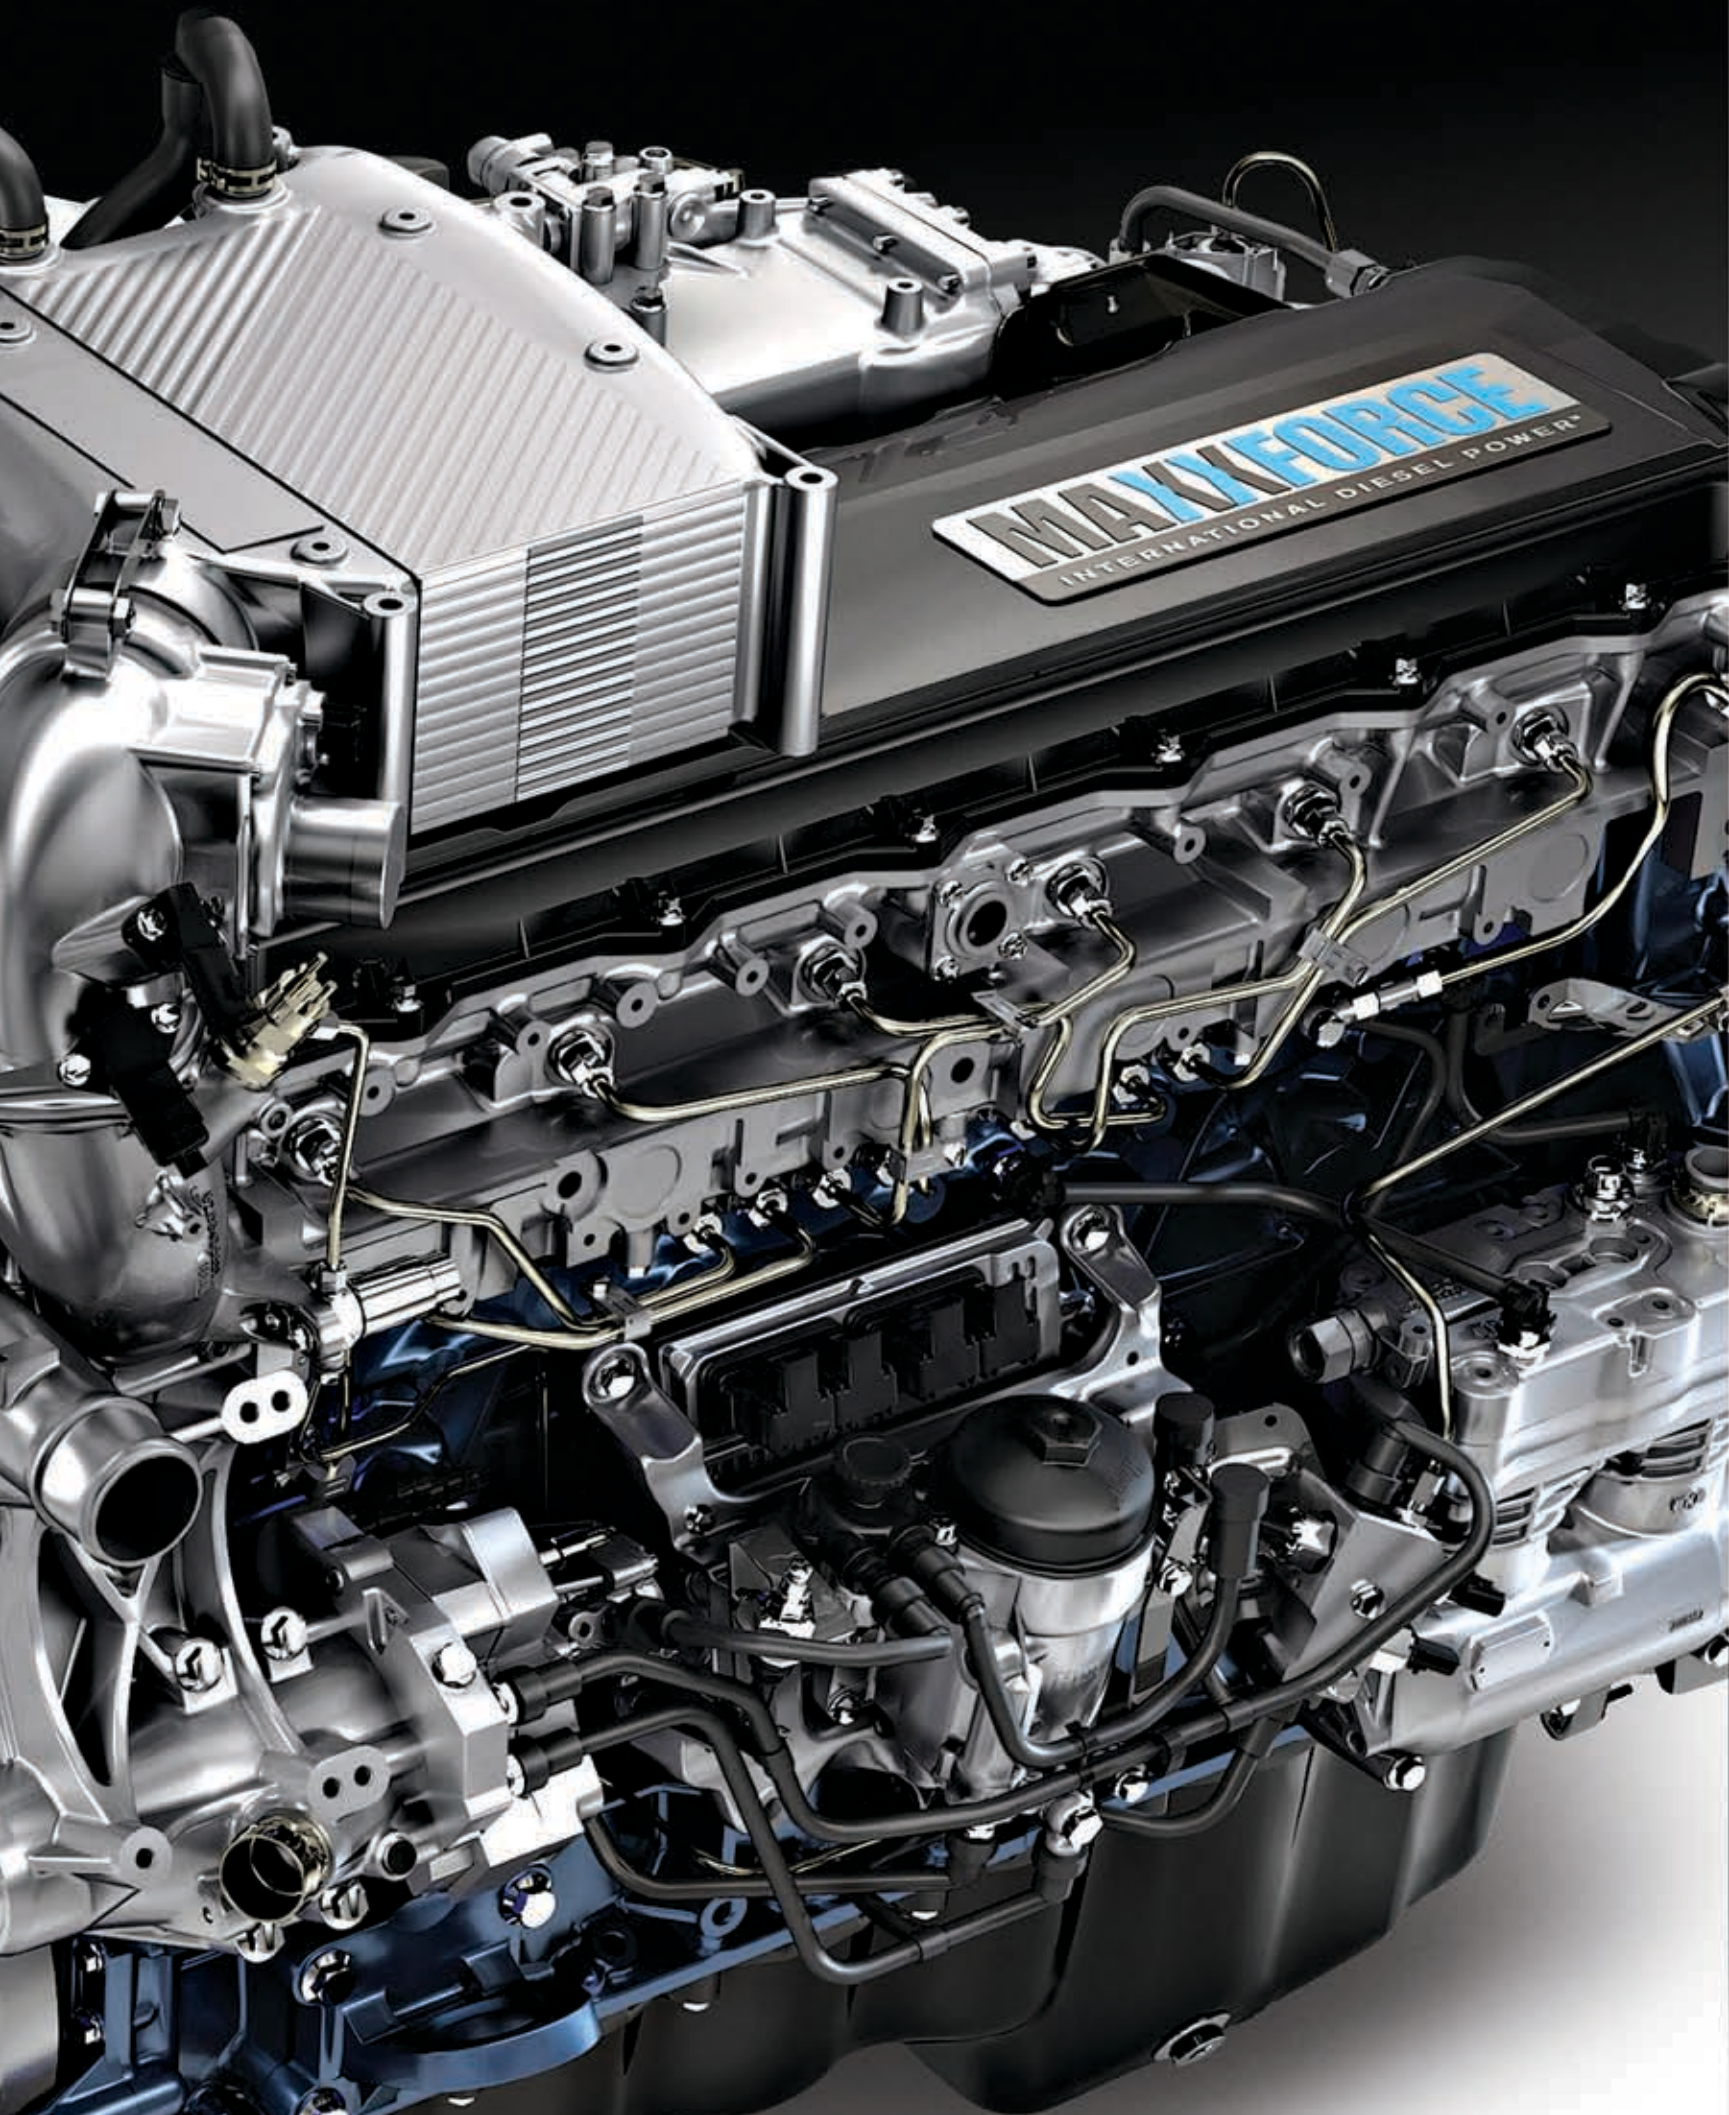

AN ERGONOMICALLY DESIGNED EMPLOYEE BENEFITS PACKAGE.

From busy, crowded neighborhoods to the rough, unforgiving environment of a landfill, you need to be comfortable in order to be productive. That's why the ergonomically designed interiors of the International® WorkStar™, International® PayStar®, and International® DuraStar™ offer you everything you need to get the job done.

WORKSTAR & DURASTAR INTERIOR FEATURES

1. Ergonomically designed dashboard with easy-to-read back-lit gauges.
2. Staircase design conveniently places steps and offers great stability.
3. Wider door openings with three-point entry/egress make getting in and out easier.
4. Diamond Logic® Electrical System enabled controls are in convenient, easy-to-reach areas.
5. Tilting and telescoping steering wheel for even more driver comfort.
6. Large pocket and overhead console offer plenty of storage space.

ALLOW US TO FLEX OUR MUSCLES.

When it's time to get the job done, International® MaxxForce™ diesel power, Caterpillar, or Cummins engines, all fully certified and compliant to EPA 2007 emissions, are ready to throw their weight around.

The International® WorkStar™ offers engine choices ranging from the legendary MaxxForce™ DT to the superior hauling power of the big bore MaxxForce™ I3. WorkStar also offers the powerful options of heavy duty Caterpillar or Cummins diesel. Whether you're hauling 30-yard dumpsters or emptying cans, you'll be ready for any job.

The International® PayStar® features the reliable Caterpillar engines with ACERT Technology, including its proprietary Caterpillar Regeneration System, designed to deliver excellent versatility, fuel economy, and performance for your application. There's also the popular Cummins engines (ISX or ISM) backed by Cummins Genuine Parts and Service and over 5,500 service locations worldwide. With up to 625 hp and 2,050 lb-ft of torque under the hood, Caterpillar and Cummins give PayStar the grunt to get the job done.

And the International® DuraStar™ gives you the choice of the venerable MaxxForce™ DT or, for more demanding applications, the MaxxForce™ 9. Fully integrated with the vehicle, each and every engine comes with synchronized and extended service intervals that help lower operating costs.

MaxxForce diesel power, Caterpillar or Cummins. Engines built to meet our highest standards, and surpass yours.

BOTTOM LINE

- Optimized MaxxForce engine, transmission and axle matching results in significant improvement in fuel economy across the MaxxForce product line.
- Commonality of parts across the MaxxForce lineup means greater availability and an easier-to-service engine.
- Choose from MaxxForce, Caterpillar or Cummins engines with available horsepower ranges from 210 hp to 625 hp.
- Integrated engine and vehicle electrical systems provide increased uptime and service efficiency.

MaxxForce™ DT

MaxxForce™ 9

MEET THE BRAINS

BEHIND IT ALL. WE CALL IT DIAMOND LOGIC.®

The Diamond Logic® Electrical System is an advanced multiplexing technology. And what it has to offer is pure genius.

While providing control and communication between key areas of the truck, the fully integrated Diamond Logic Electrical System helps improve uptime with a self-diagnostics display on the instrument panel that makes repairs quick and easy. So you spend more time on the road.

It also comes with a number of programmable features. Our Driver Convenience Package offers things like a built-in parking brake alarm and pre-trip light checks. And if you're looking to further customize, you can choose from options that automate packing with safety interlocks to a drive-time meter that shows you how many hours the truck's been in use.

Simply put, Diamond Logic does it all. Protecting the driver, the equipment, and the budget. Brilliant.

- BOTTOM LINE
- Available convenience package comes with built-in features like parking brake alarm, pre-trip exterior light checks and wiper speed control.
 - Automatic engine shutdown when preset values such as coolant temperature and low oil pressure are exceeded.
 - Can be customized to automate packing while offering safety interlocks.
 - Low hydraulic oil level indicator notifies driver of low oil levels, preventing hydraulic damage.
